## New Job Offers

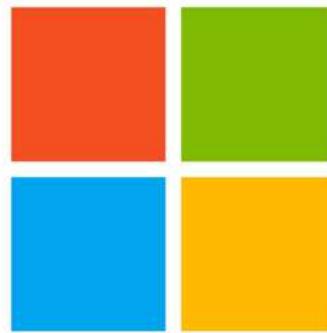

AI Advancements 23

**Swapnil Narayan**  
**IIT Dhanbad**

## **Alumini of IIT Dhanbad**

**Works at Microsoft**

**Cracked facebook hacker cup  
challenge (Top 1%)**

**Gotten Job Offers from**

## **Problems you might have right now...**

- Low Efficiency & Productivity
- Low Salary Package
- Low Salary Appraisal Every Year
- Lack Of In-Demand High Income Skills
- Lack Respect / Appreciation In Your Job
- Stuck In A Department / Industry You Dislike

## SETTING EXPECTATIONS

Solve all of these problems with me & learn the easiest way of using AI with PowerBI & the unkown ways of using AI in our jobs that saves you a **minimum of 2 hours a day in your job**

# BEFORE WE BEGIN...

- 1. If you have joined in from your phone, IT IS ABSOLUTELY OKAY!**
- 2. Windows users – Use PowerBI Desktop (Steps to download already shared with you).  
MAC users – Use Power BI Service (will share how to use with the workshop notes).**
- 3. Office 365 is NOT the same as Office 2007, 2013, 2016, 2019 or 2021. It is the latest AI version of MS Office. It is completely fine if you don't have Office 365 during the workshop.**
- 4. As a part of the workshop, learn right now & practice later. All notes & links will be provided. No recordings.**
- 5. I have amazing bonuses worth Rs 10,500 for FREE to make you 6x more efficient in your job. Make sure to stay till the end to get your bonuses, mark your attendance & also get details on how to get your certificate for the workshop**

# Pay attention:

# Important Meeting Alert!

The company, **Amazon**, is experiencing uneven growth patterns. Leadership suspects hidden inefficiencies and missed opportunities that could be costing Amazon millions.

As a **Data Analyst at Amazon**, you've been handpicked to diagnose the root causes, surface actionable insights, and drive strategic clarity.

This isn't just another data project – this is a turning point. Your analysis could directly shape Amazon's next big move in product strategy and regional expansion. And for you personally, this presentation is the make-or-break moment that could catapult you into a senior role – or leave you stagnant for the next two years.

## You must:

- Analyze and deconstruct Amazon's current sales and profit landscape – across SKUs, categories, geographies, and customer segments.
- Identify bottlenecks, underperforming segments, and untapped opportunities.
- Create a compelling, insight-rich dashboard that tells a clear story – one that leaders can use to make decisions immediately.
- Prepare for tough questions from senior leadership. You need to answer complex, cross-cutting queries – on the spot, with confidence and data-backed precision.

**Remember:** This isn't just about presenting numbers. It's about solving a real, pressing business problem. Amazon is depending on you to uncover what others have missed – and to turn the data into a roadmap for accelerated growth.

Want to get quick insights about the  
dataset before even analysing it or  
creating a Dashboard?

# Claude

<https://claude.ai/>

**Trained on more data than ChatGPT**

**Gives you real time information**

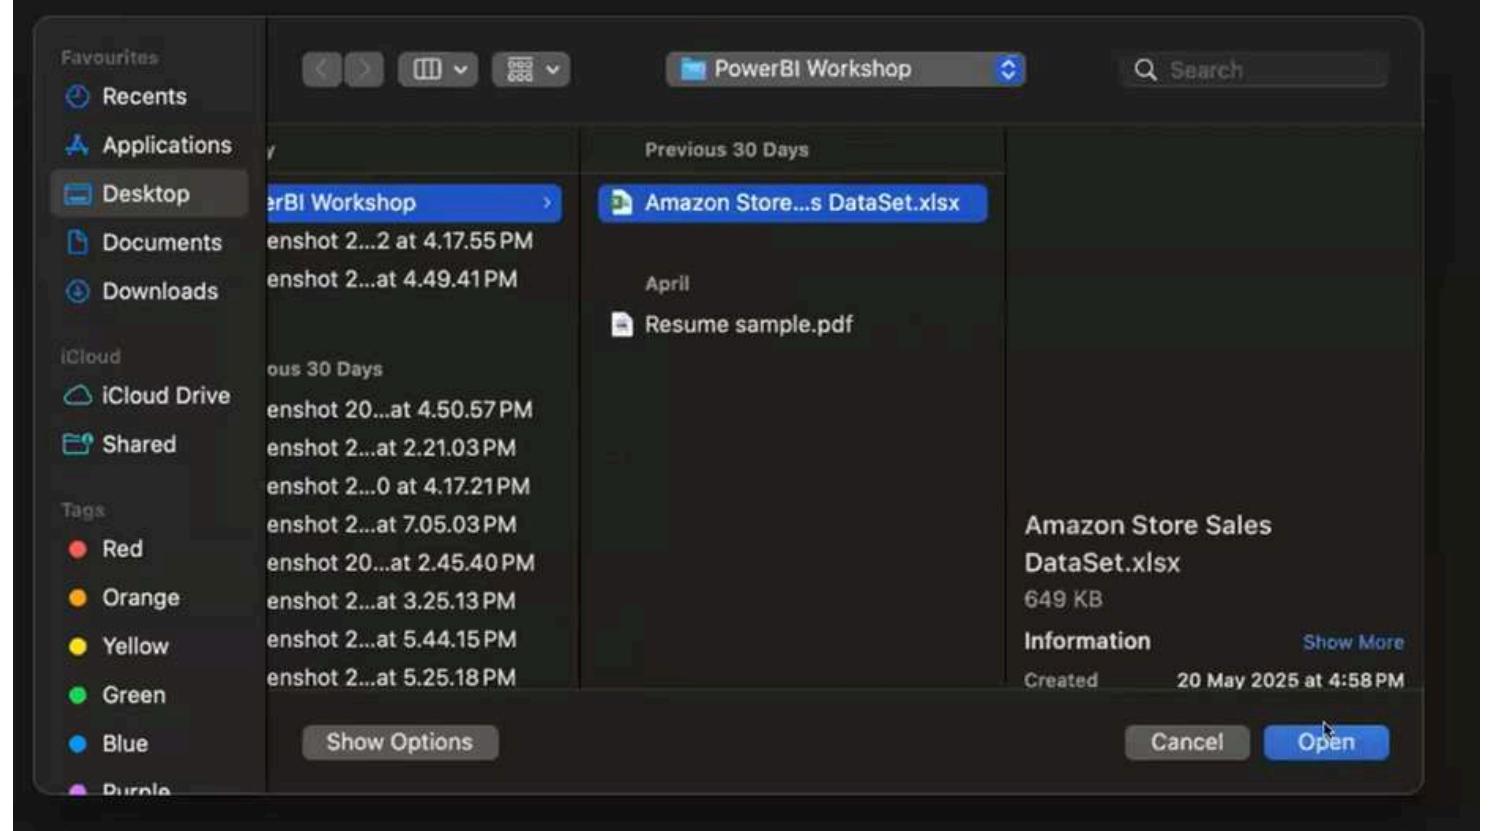

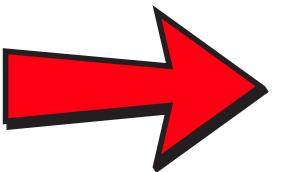

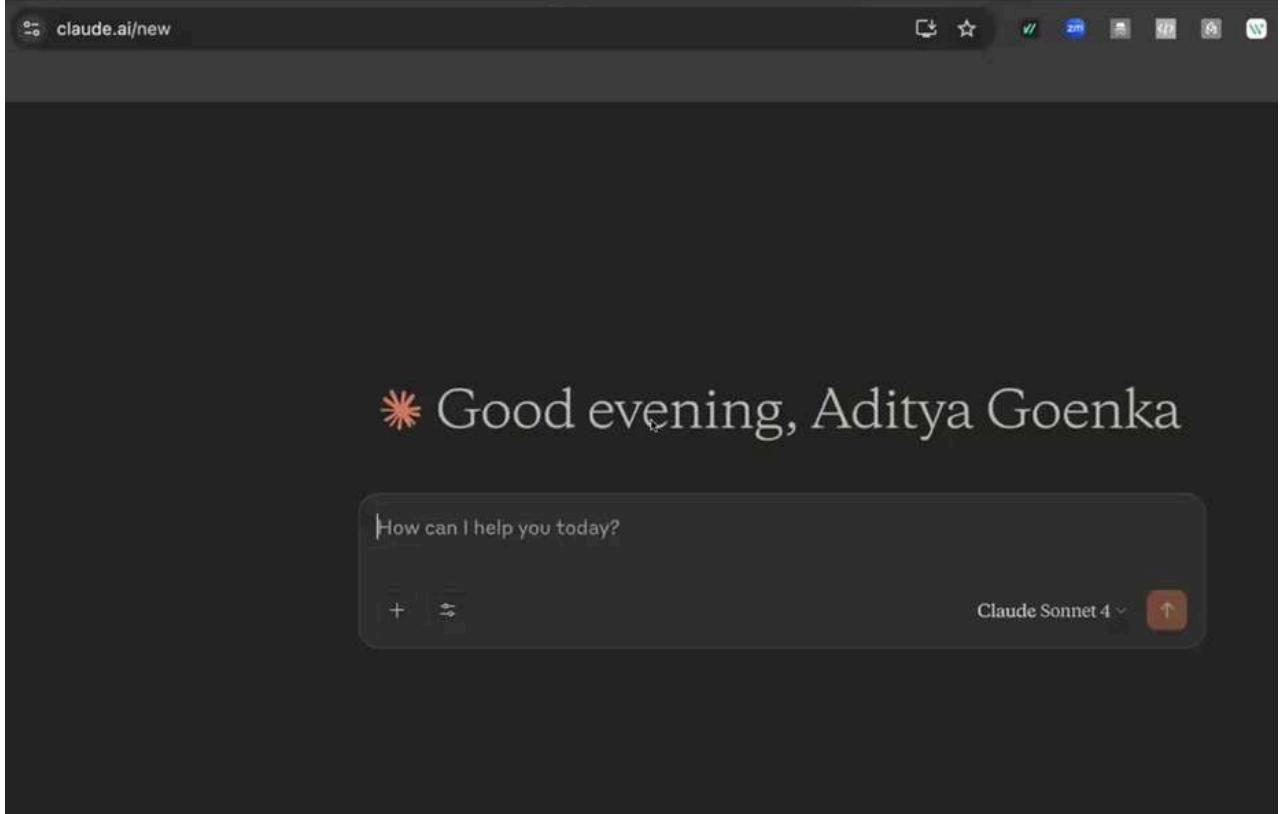

**Allows you to upload files for free**

**Can be used for free**

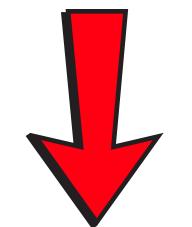

**Google is an Investor (100% secure)**

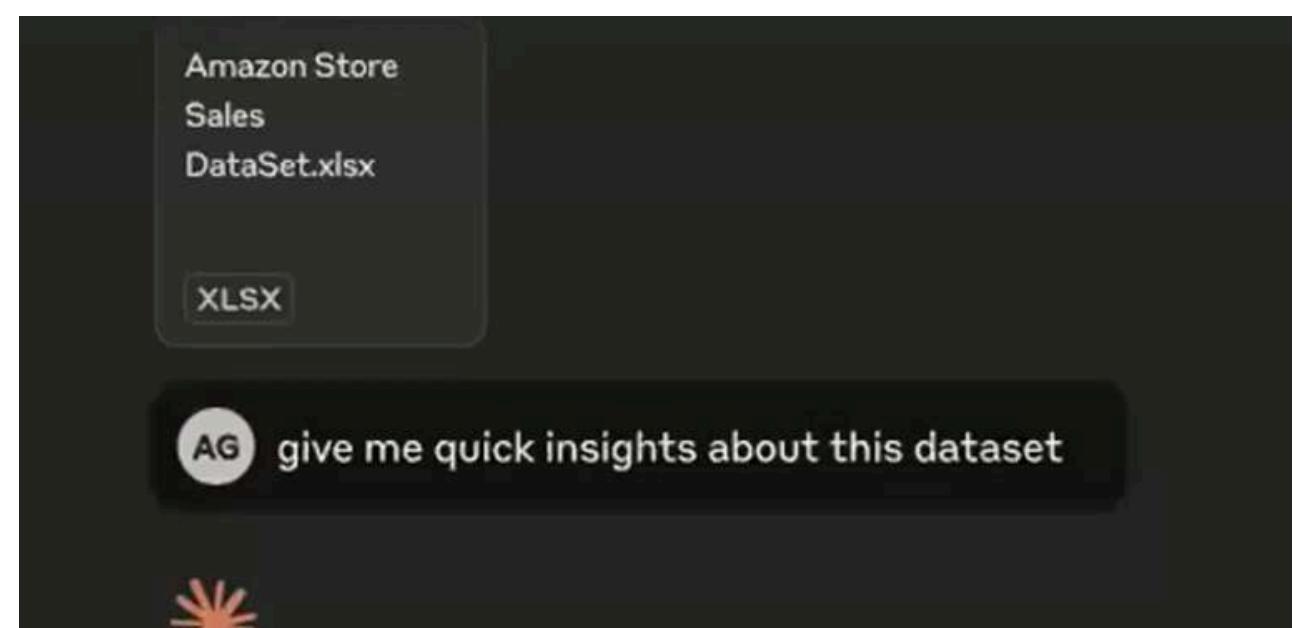

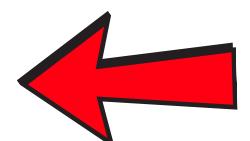

**Go to claud.e.ai**

**Choose the file from your desktop which you want to analyse**

```
// Convert to JSON to analyze
const jsonData = XLSX.utils.sheet_to_json(worksheet);

console.log(`\nDataset overview:`);
console.log(`- Sheet name: ${sheetName}`);
console.log(`- Row count: ${jsonData.length}`);
console.log(`- Column count: ${Object.keys(jsonData[0]).length}`);
```

**AI starts generating a few lines of code**

**Give it a small prompt as shown in the snapshot**

## Quick Dataset Overview

- 5,901 transactions across multiple years
- 21 columns including sales, profit, customer details, geography, and product information
- Revenue range from \$1.56M total with \$175K profit (11.2% margin)

## Key Performance Insights for PowerBI Dashboard

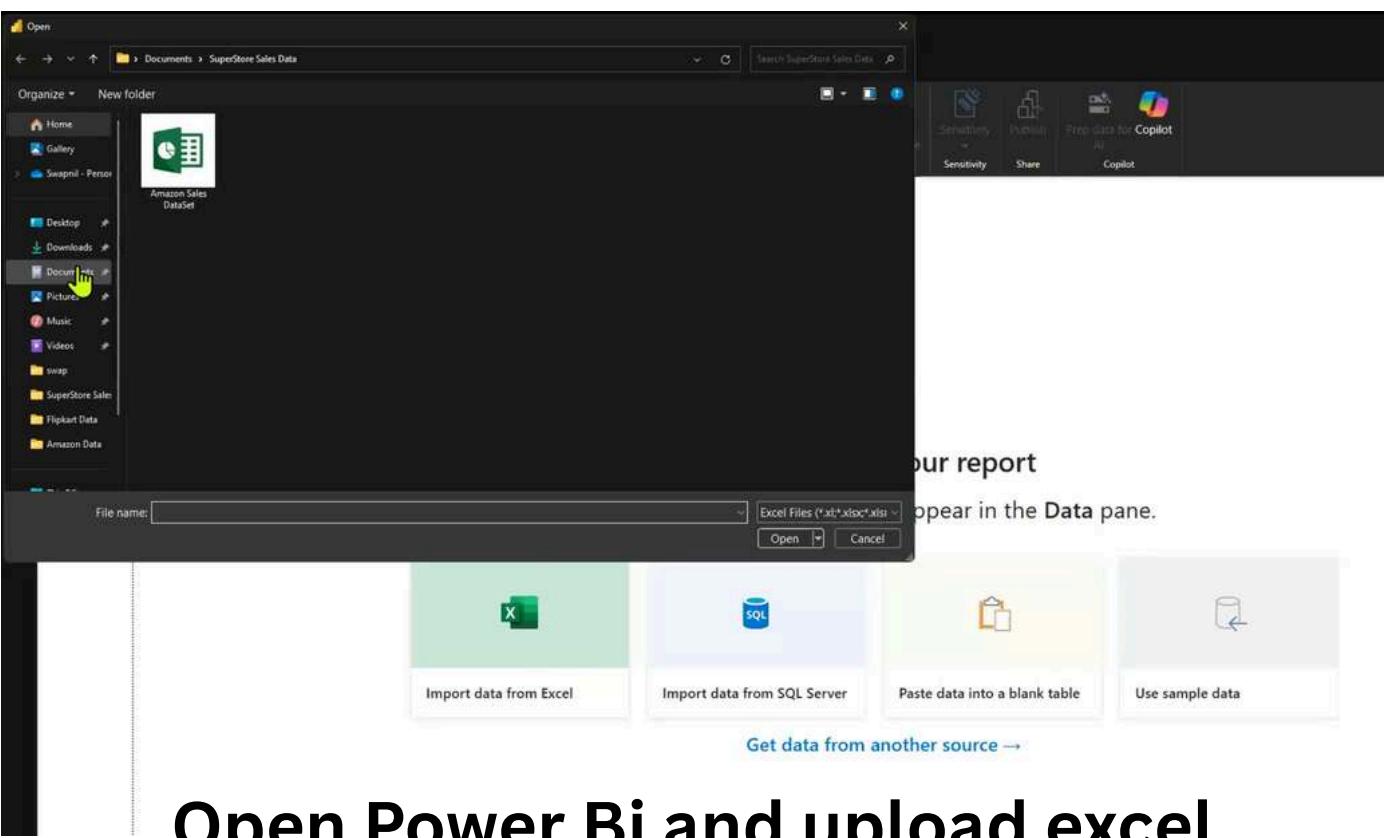

### 📊 High-Level KPIs to Feature

- Total Sales: \$1,565,804
- Total Profit: \$175,262
- Profit Margin: 11.19%
- Return Rate: 4.9% (287 returned items)
- Average Order Value: ~\$265

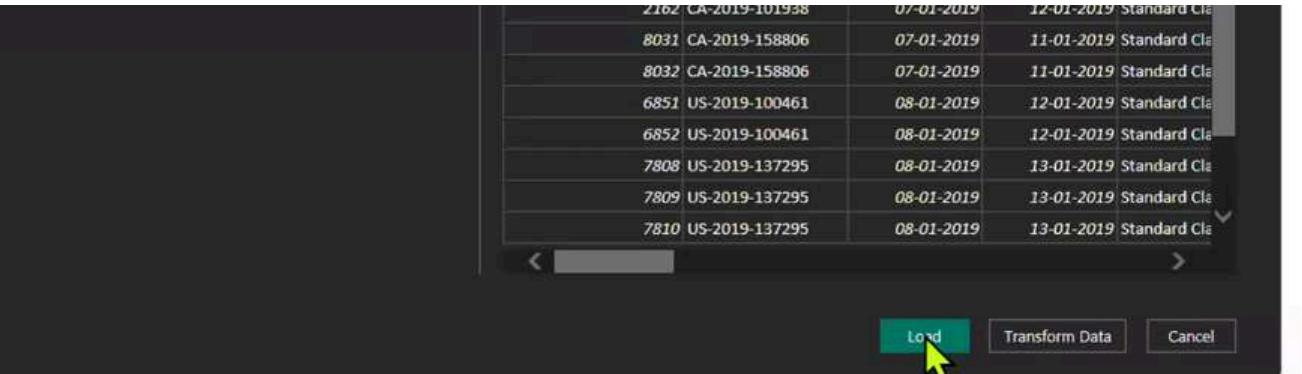

### ⌚ Category Performance (Dashboard Priority)

1. Office Supplies: \$644K sales, 11.6% margin (highest volume)
2. Technology: \$471K sales, 19.2% margin (highest profitability)
3. Furniture: \$452K sales, 2.2% margin (lowest profitability - needs attention)

You will get a brief analysis of the excel sheet  
that you uploaded within very less time

Open Power Bi and upload excel sheet from your computer

Once uploaded, you can load the data into Power BI

Once, you click onto any chart you will see a blank chart appearing on the screen

You have multiple options for charts and graphs for analysis of your data

**Y-axis**

Category  x

**X-axis**

Add data fields here

**Legend**

Add data fields here

**Small multiples**

Add data fields here

**Tooltips**

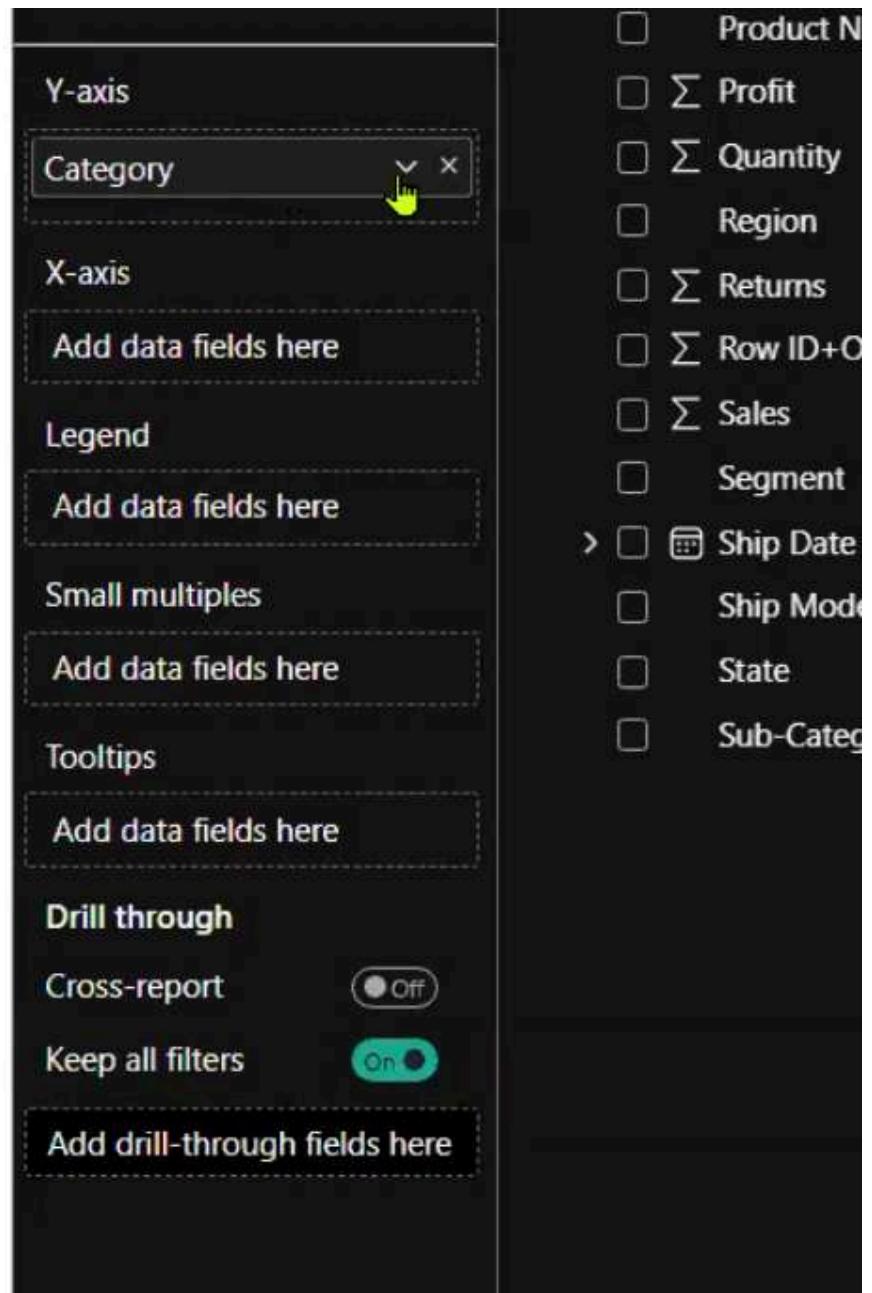

Add data fields here

**Drill through**

Cross-report  Off

Keep all filters

Add drill-through fields here

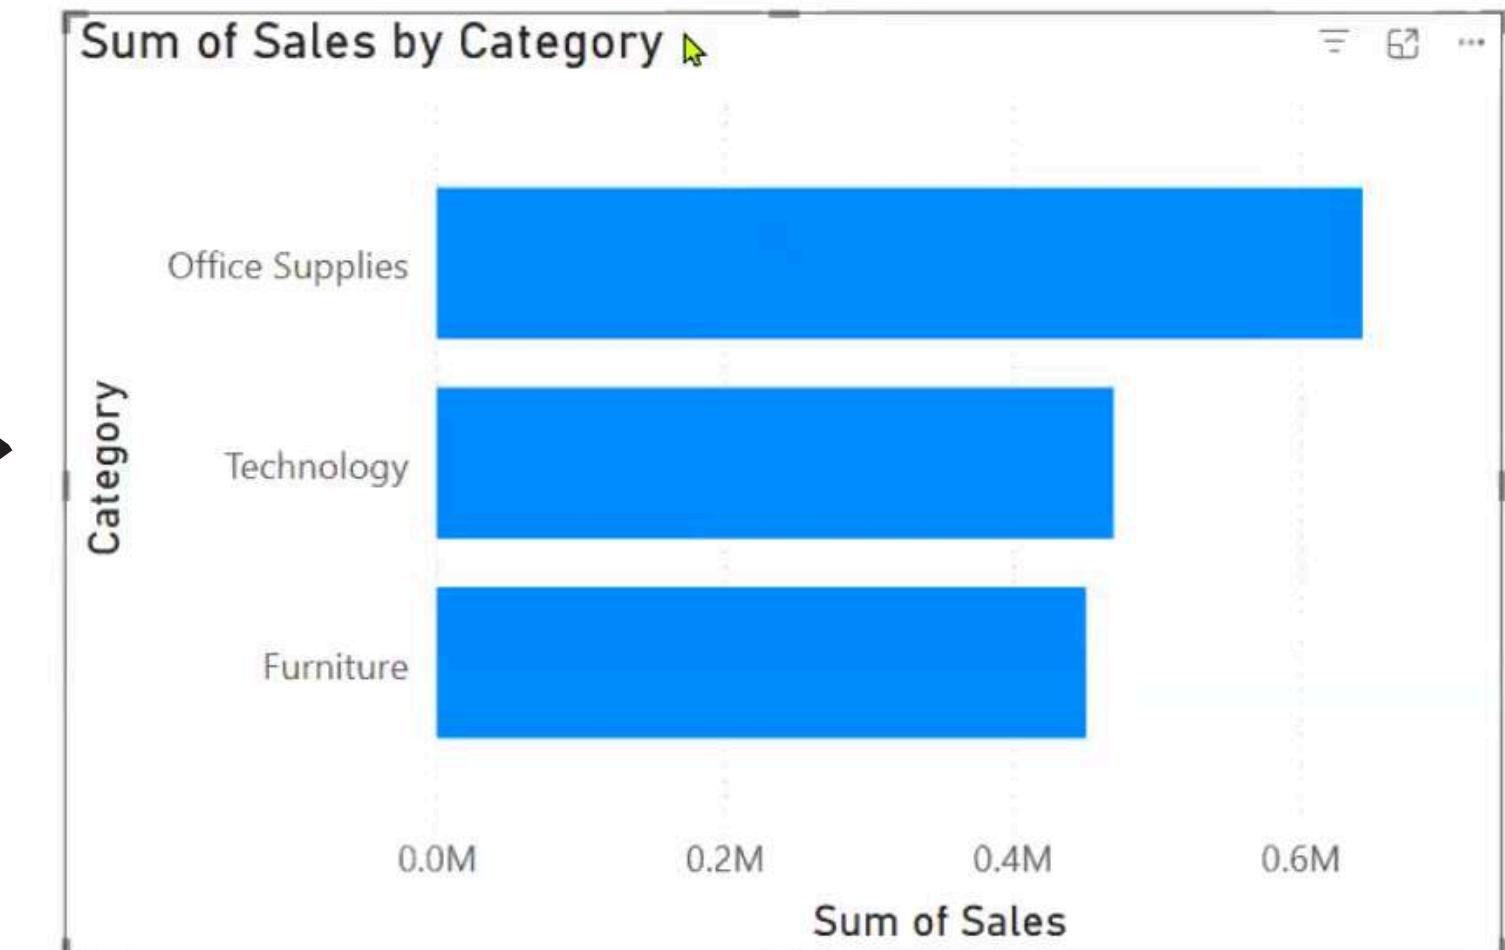

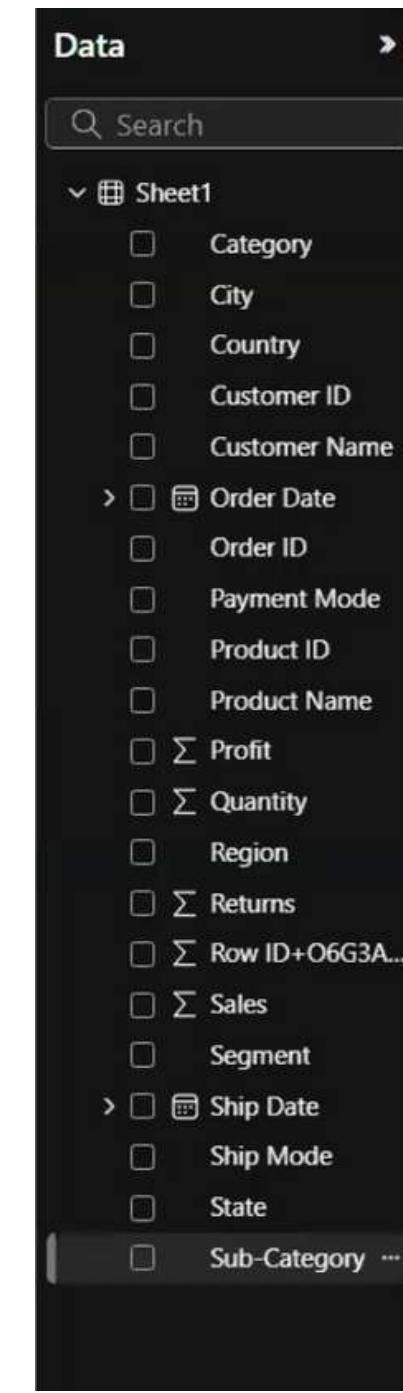

**Data**

Search

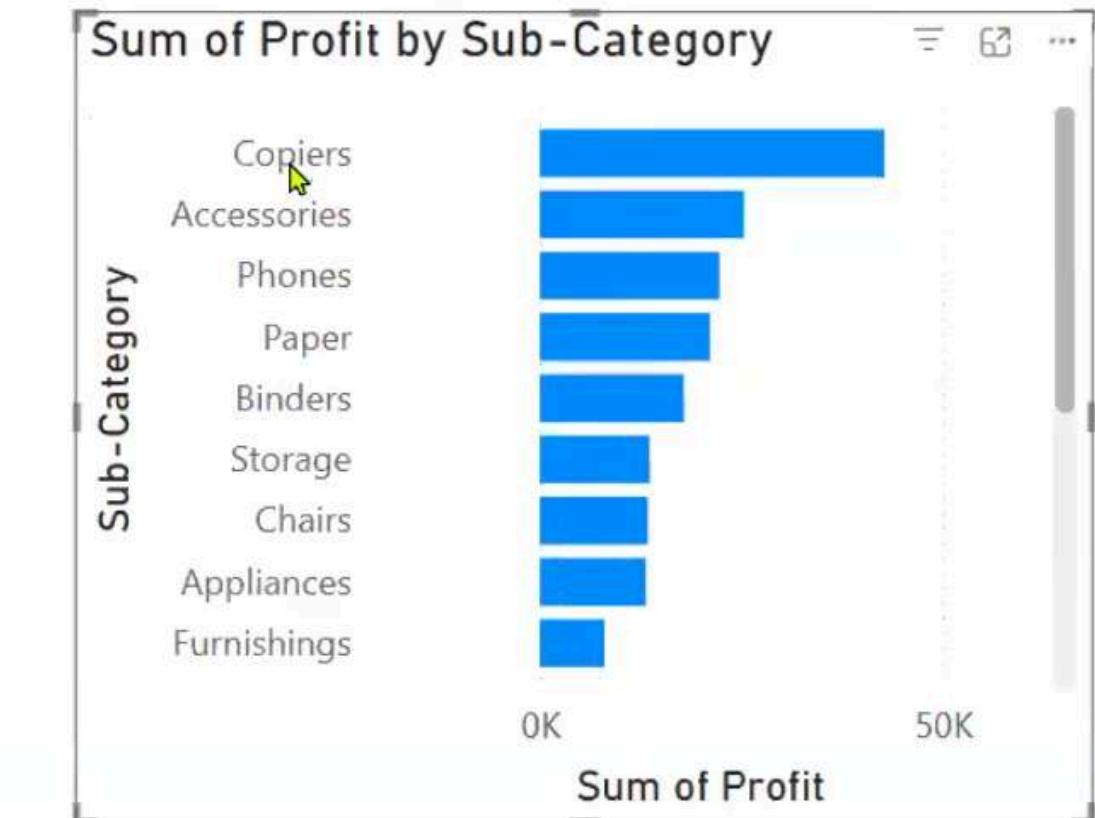

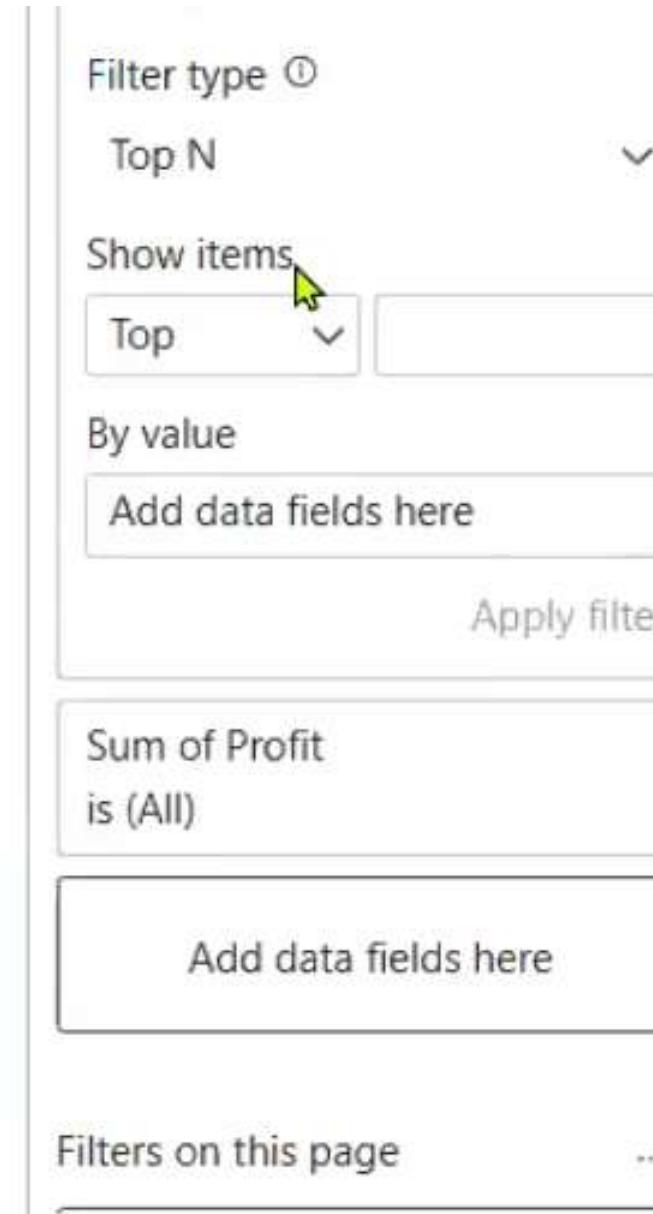

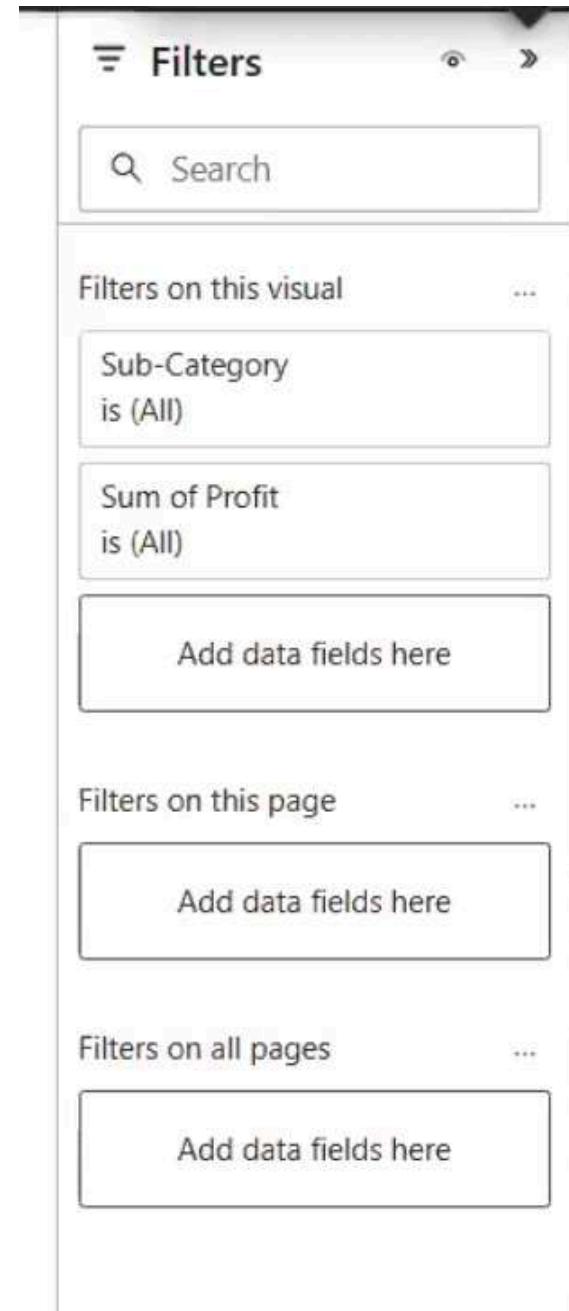

Sheet1

- Product Name
- $\sum$  Profit
- $\sum$  Quantity
- Region
- $\sum$  Returns
- $\sum$  Row ID+O
- $\sum$  Sales
- Segment
- >  Ship Date
- Ship Mode
- State
- Sub-Categ

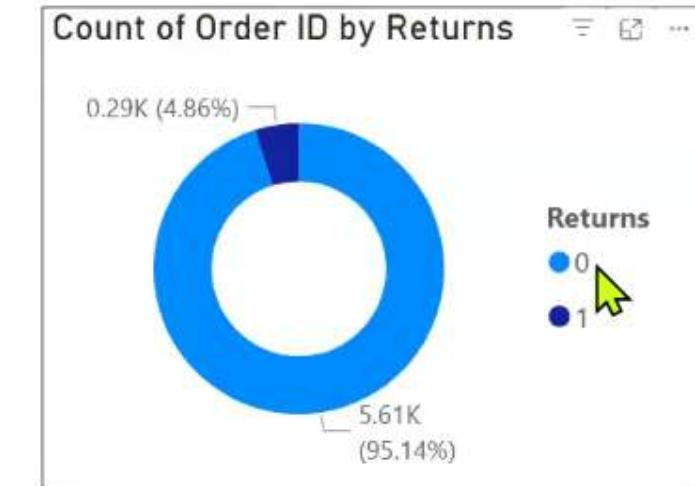

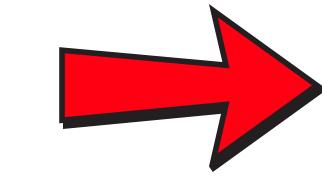

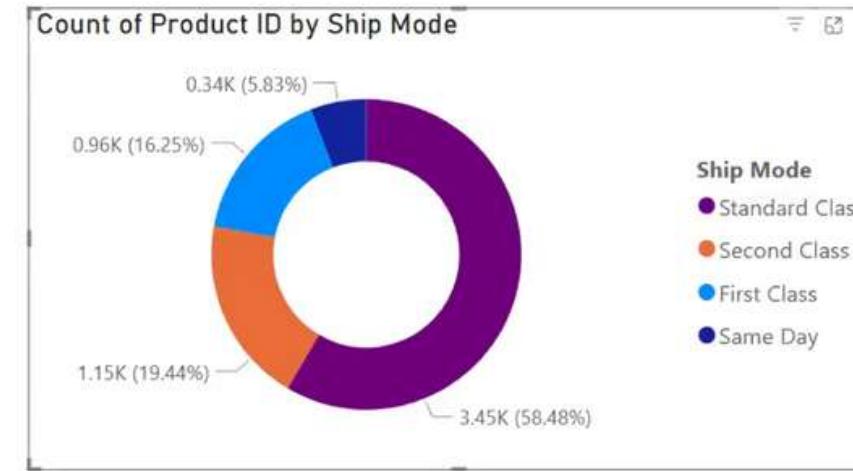

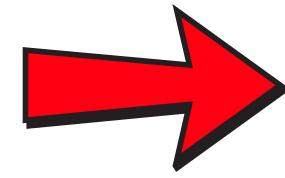

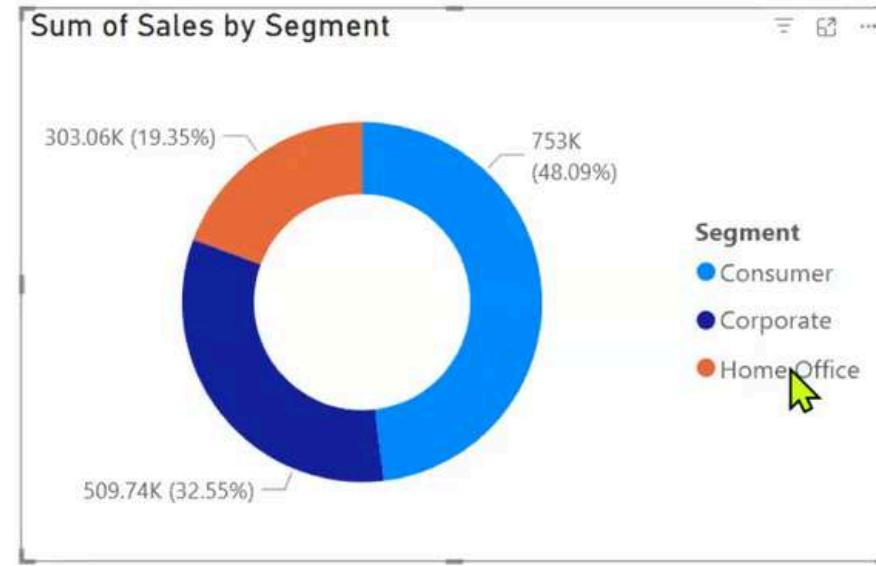

You can specify by choosing different parameters for x-axis and y-axis to plot your graph/chart accordingly

you will see a basic chart like this on the screen after choosing x-axis and y-axis

**For a much deeper and specific analysis of the data you can put different filters and can analyse more precisely**

There are many types of charts that you can create and include in your dashboard in Power BI

As shown, you can create donut charts by choosing different parameters and make your dashboard more insightful

This type of charts may look less significant

once added the new column, you can directly add legend as the name of that column

By this, your chart becomes easier to understand and more significant

You can change what you want to put on x-axis

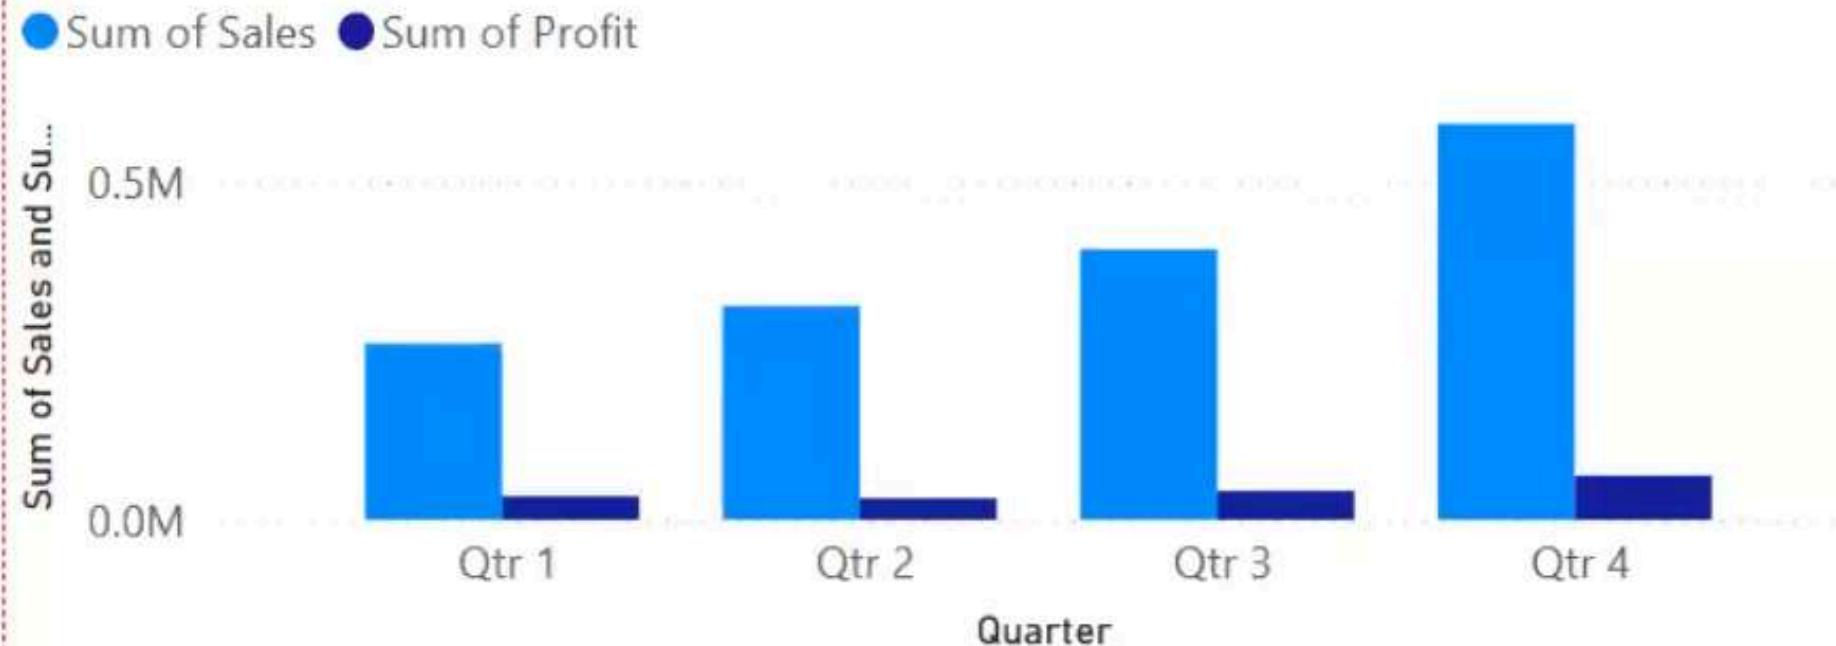

by adding all these features you can get a very insightful chart

to add more details add legend in your chart

and this is how you can get a monthly analysis

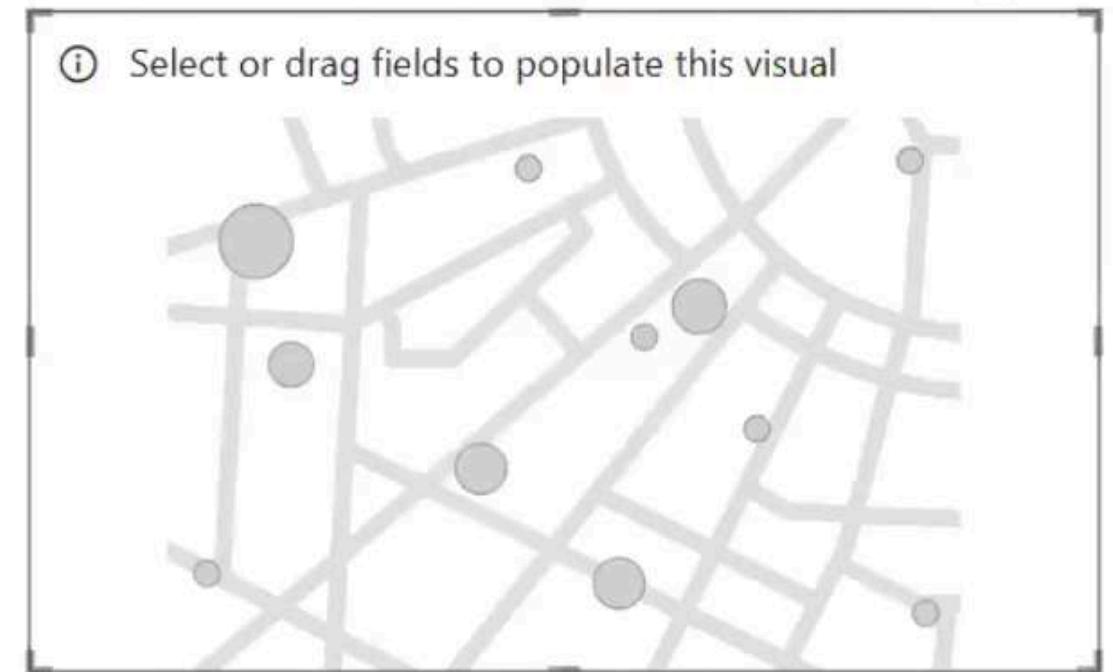

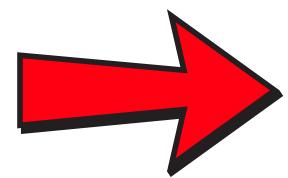

## Sum of Sales and Sum of Profit by Quarter

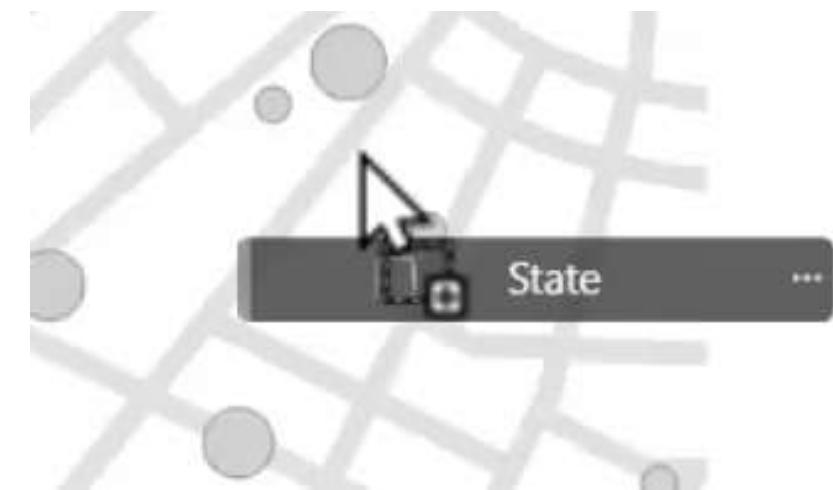

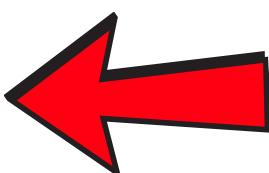

For comparison of two quantities like sales and profit, you can use clustered bar chart

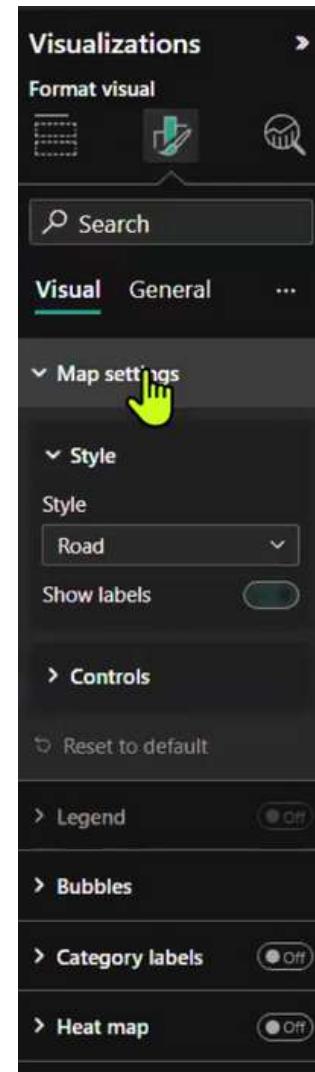

this way you can view the map and change the bubble size accordingly for analysis

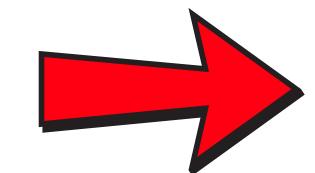

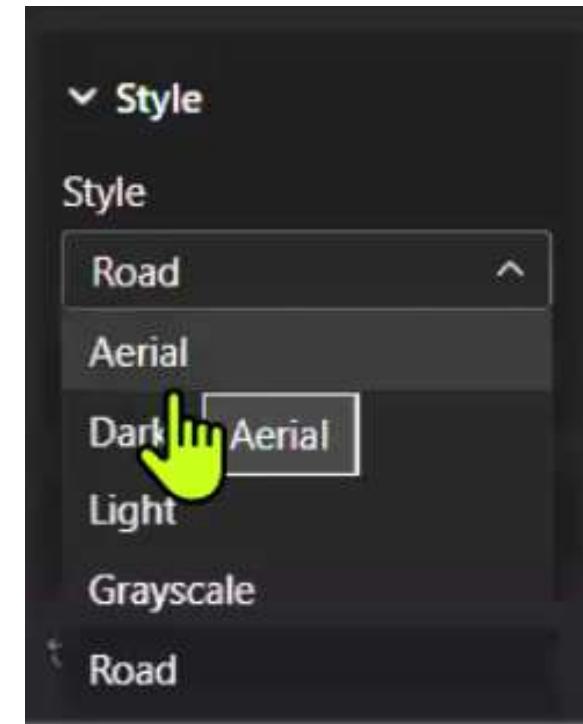

for regional comparison, you can use the map chart

drag the state column for reference and here you go

**you can go to visuals and choose the type of map you want to view as seen in the snapshot**

**Aerial map**

**Road map**

**Grey Map**

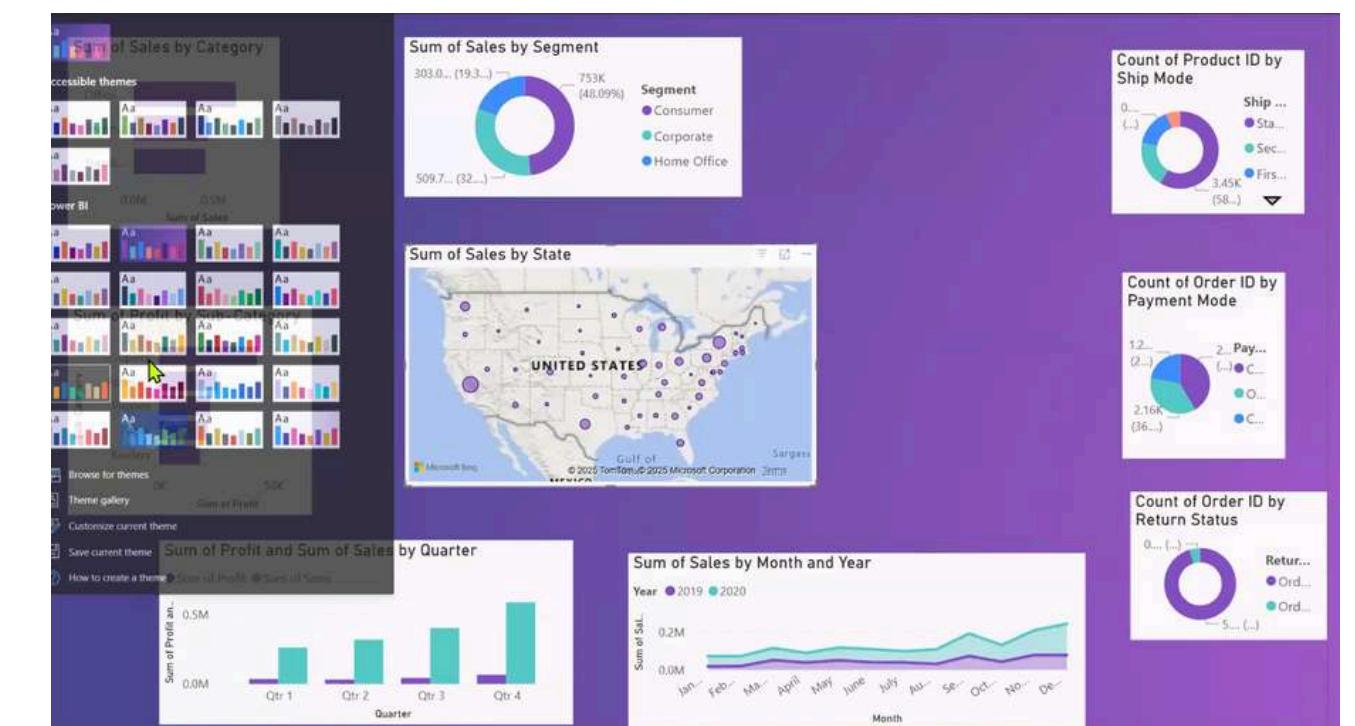

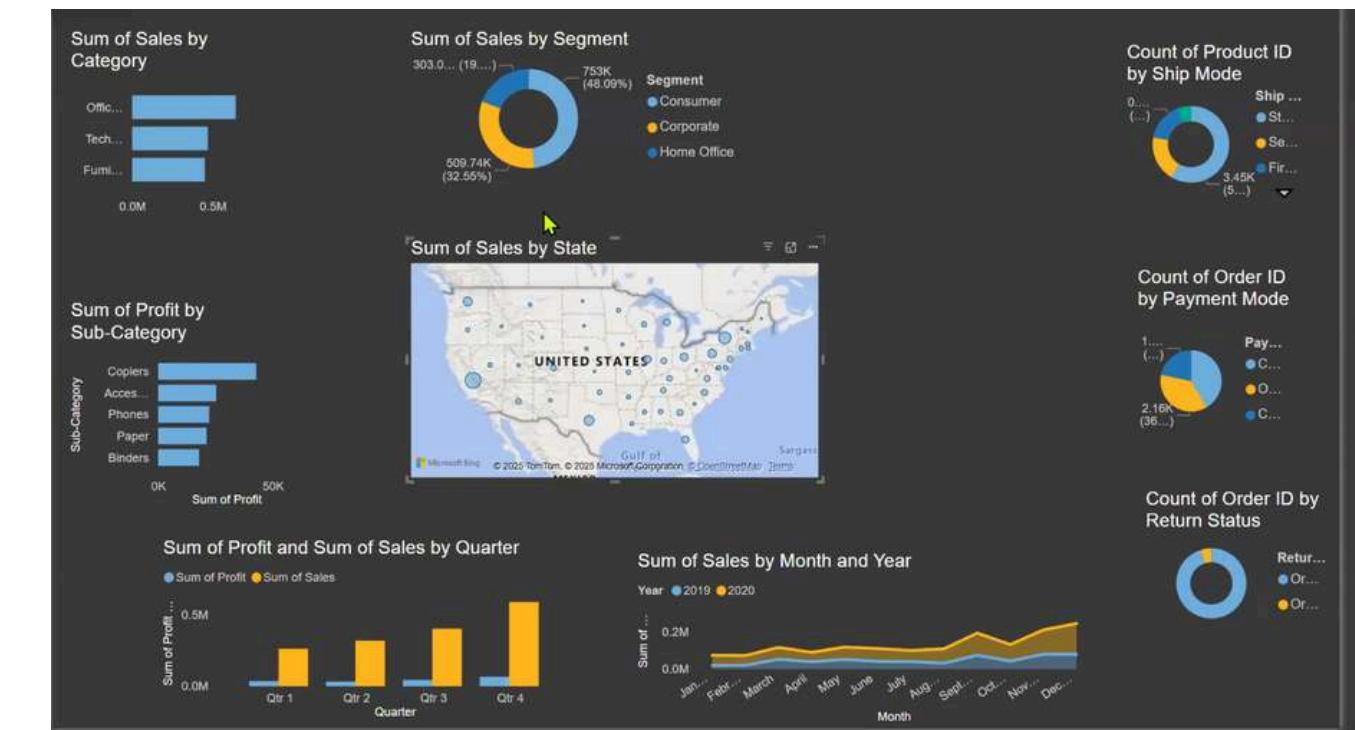

**Dark map**

# To make your dashboard look fantastic follow these steps:

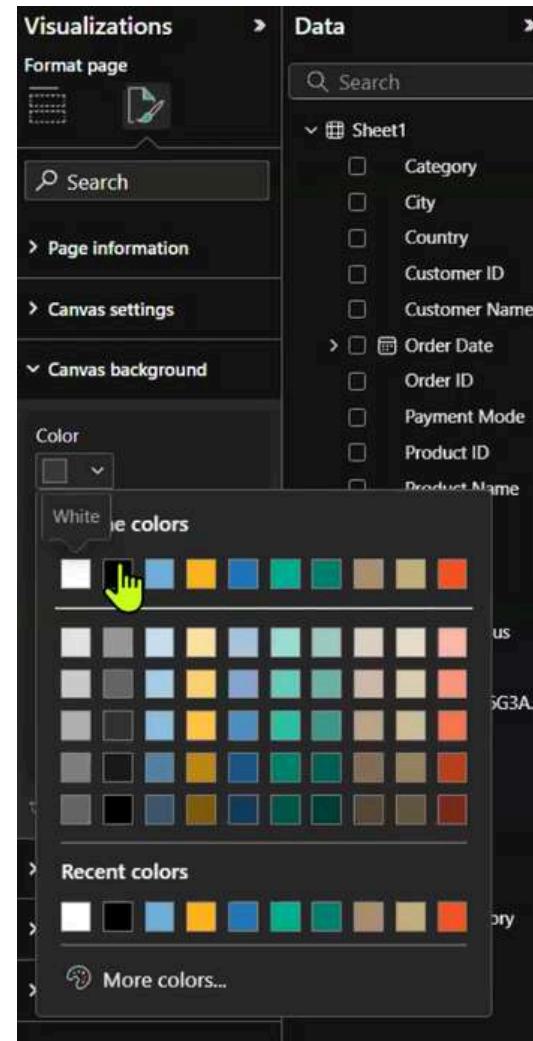

From this

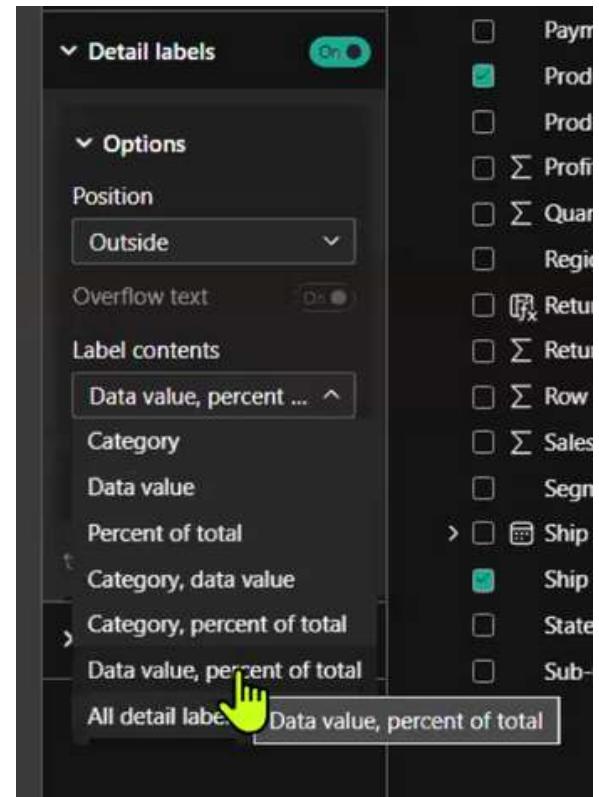

To these

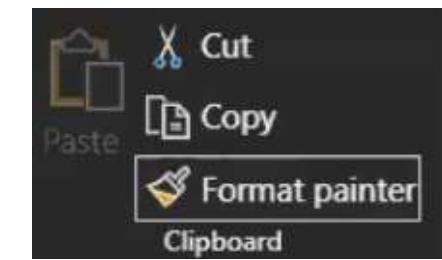

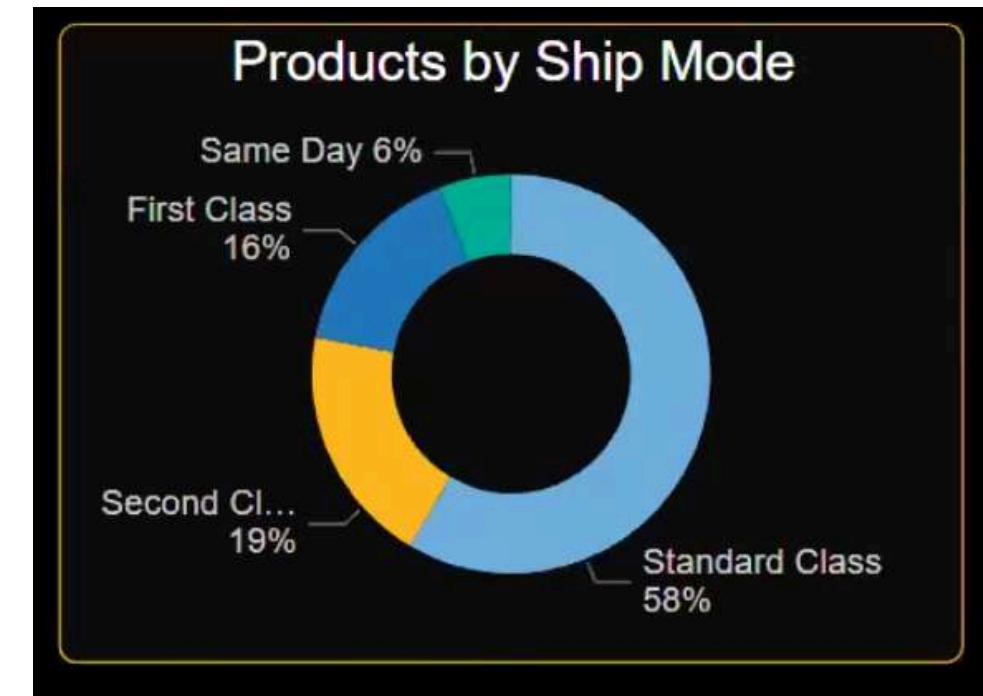

Go to view and choose the colour theme you want

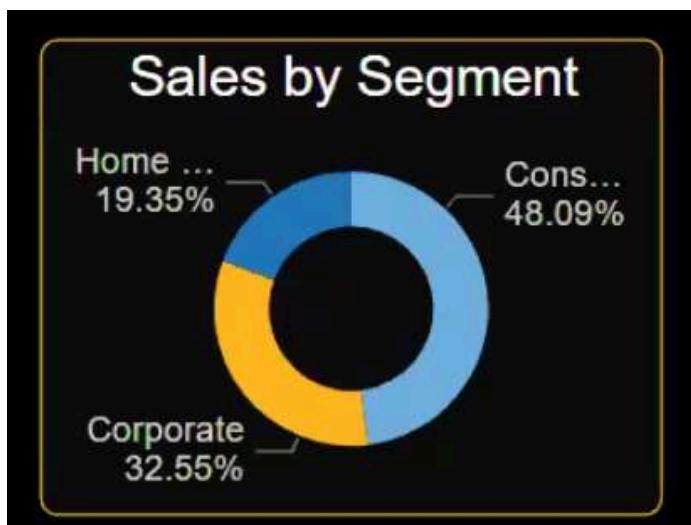

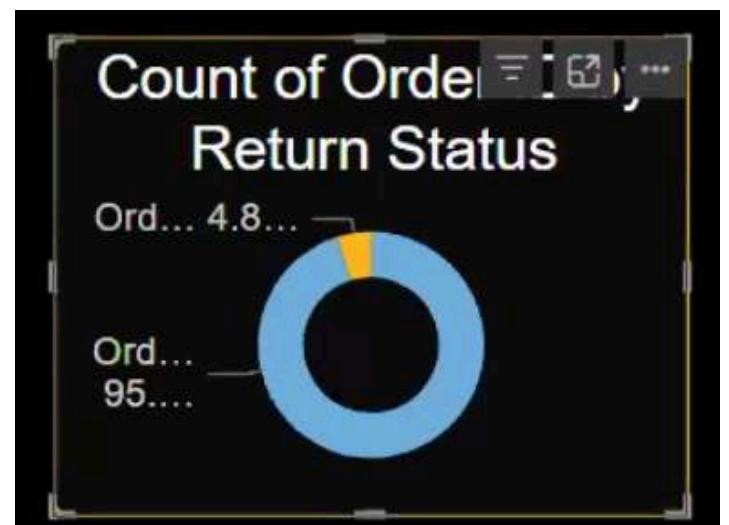

To format your dashboard further you can change the background colour

To format your donut charts, you can put the labels accordingly and add borders for better visibility

We edited one of the charts manually and the other can be done automatically by using format printer

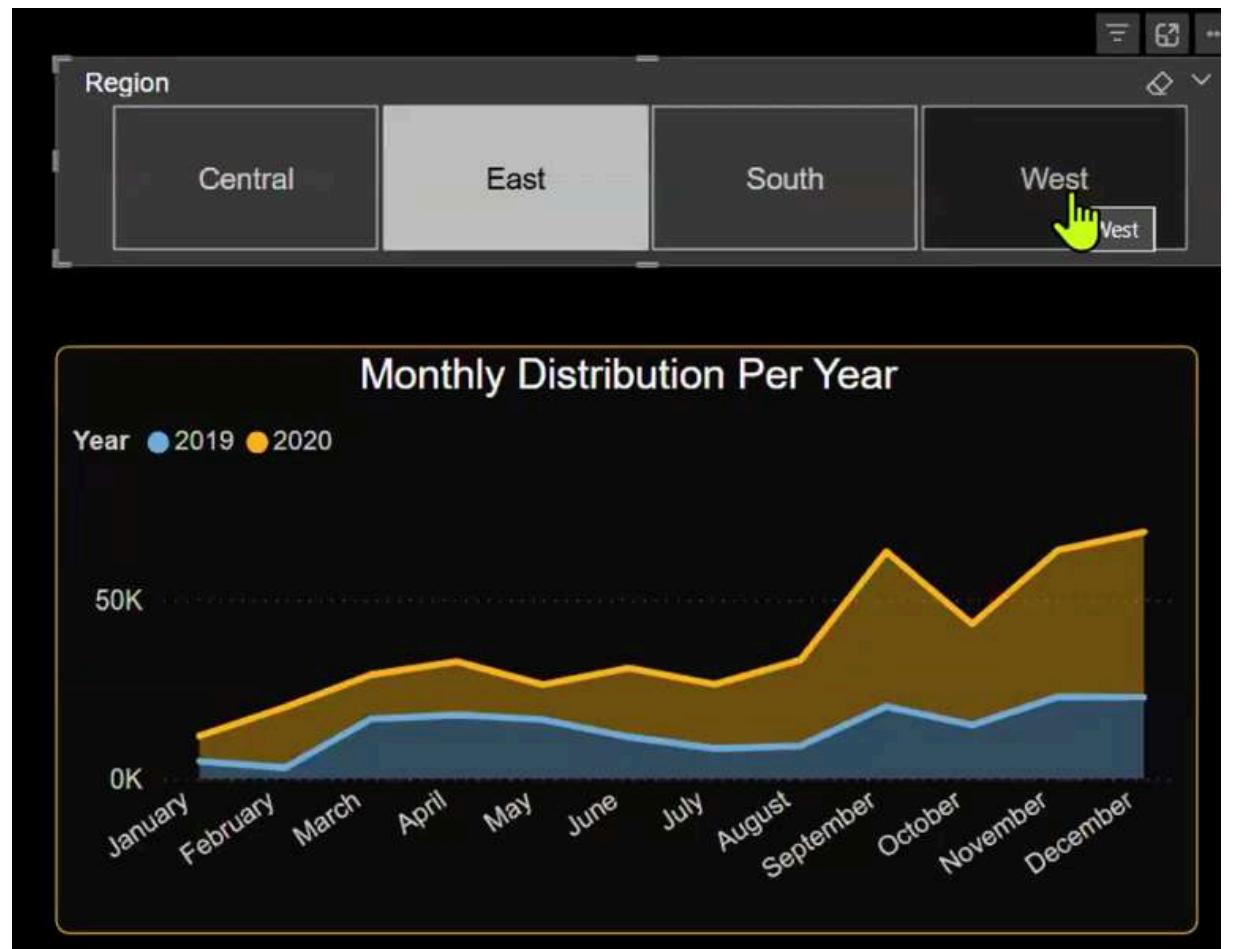

like this

You can format the entire dashboard and make it look impressive like this

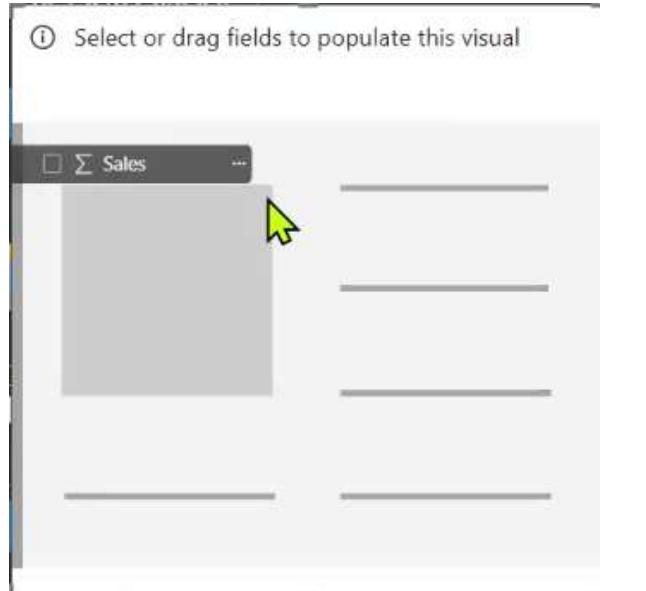

to get analysis of respective regions separately, you can add a slicer in your dashboard

This is how Slicer can give you analysis of two different regions

We can add a text box and edit according to our colour theme

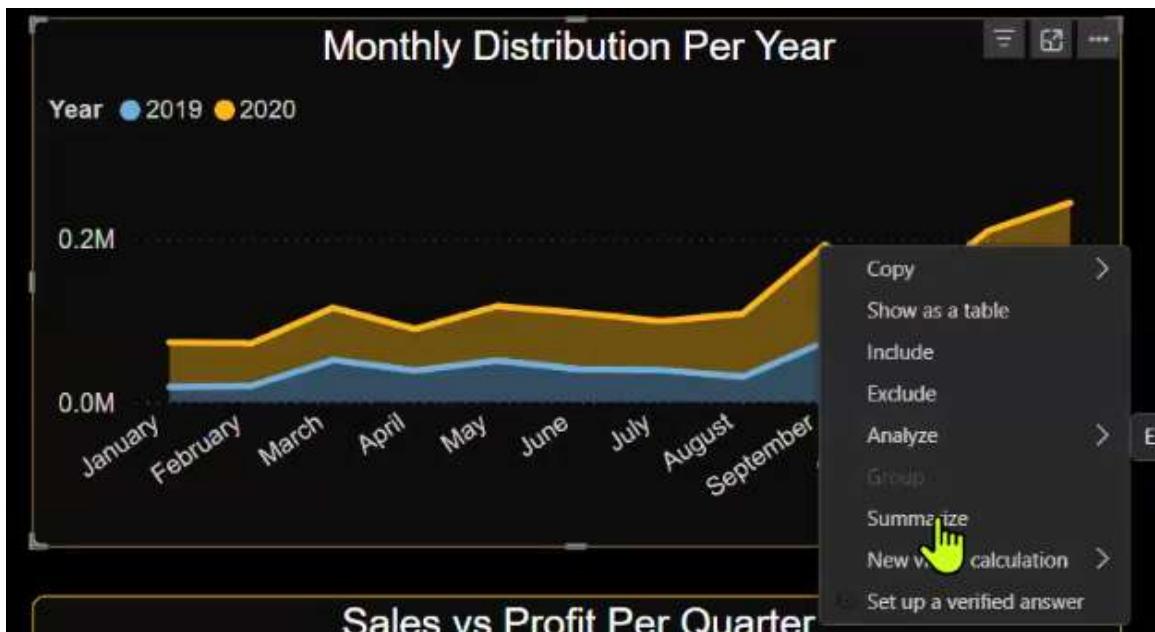

For KPIs, add a card from the chart menu

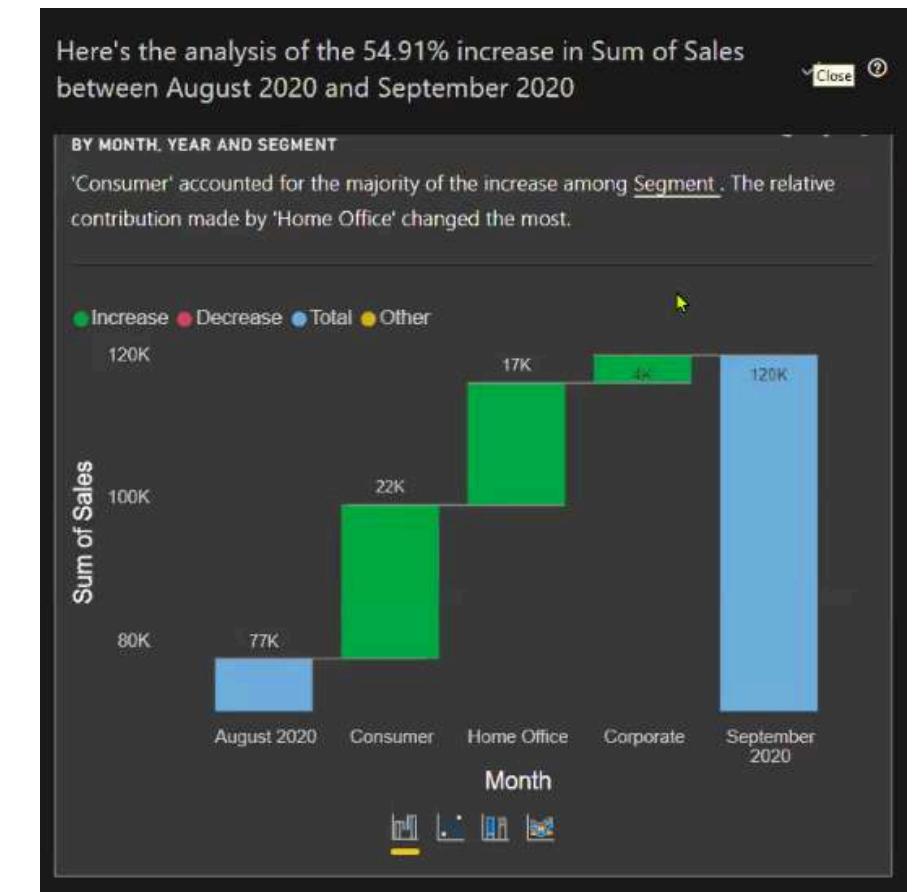

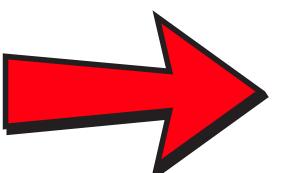

As we added Sales, we have got the KPI for sales

for every parameter KPIs can be shown

You can click on a certain point on a chart and see the analysis at that particular point

AUTO CLEAN & IMPORT

REVIEW 5000 Rows / 21 Columns Only First 5000 Rows Were Uploaded For This Data File

Amazon Store Sales DataSet Project  
Add a description to the project (it will appear in downloaded project report)

IMPORT	COLUMN NAME	TYPE
On	Order Date	Date & Time
On	D	Ship Date
On	E	Ship Mode
On	F	Customer ID
On	G	Customer N...

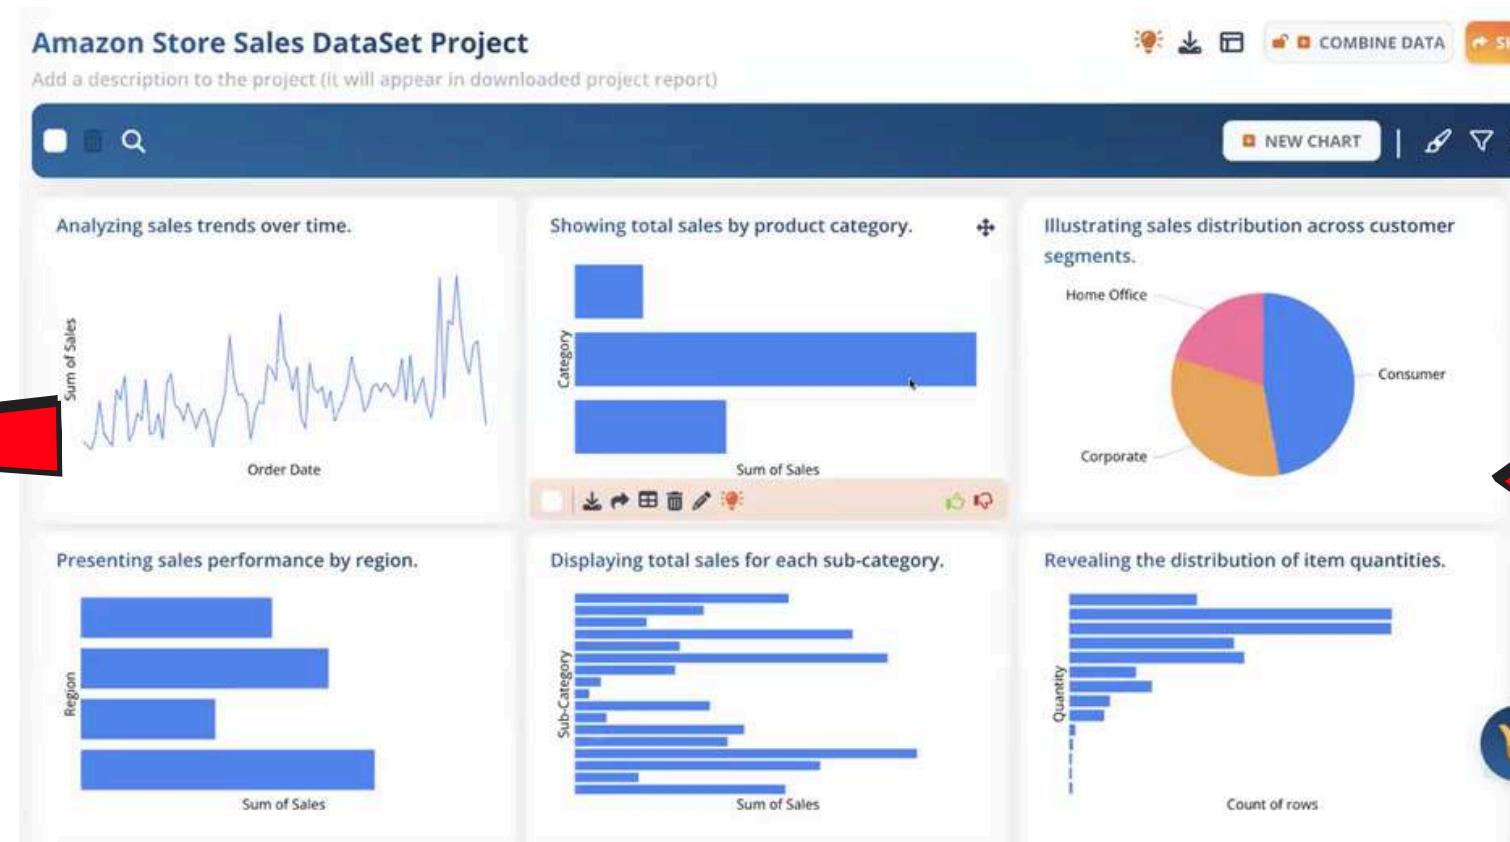

DataSquirrel has identified this column as containing sensitive data (e.g., Name, email, D, etc.). The data in this column will be automatically anonymised/changed before saving to protect privacy (e.g., Sam Peter becomes T-01b0d3a7bdd7ea33a). To disable anonymisation, turn this button off.

Click to know more

Upload the file you want to analyse

After choosing the file, click on clean and import

Within few seconds you can see that it has cleaned all your data

you can even edit these charts accordingly

in a moment, you will see a lot of charts for analysis and you can download all of them

We have performed the following data cleaning tasks:

1. Corrected 2 inconsistent casing patterns in 1 column.
2. Corrected 3 inconsistent label variations in 1 column.
3. Anonymised 1 column to protect privacy.

You can

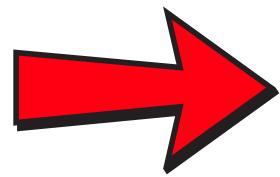

- Download cleaned data file by clicking Download button
- View cleaned rows and columns by clicking icon

Upload the file you want to analyse

I uploaded the file: Amazon Store Sales DataSet.xlsx  
give me a link to download a 3d interactive dynamic visualisation from this dataset

Julius

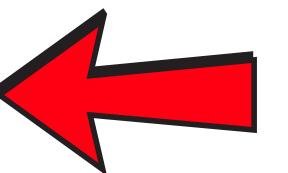

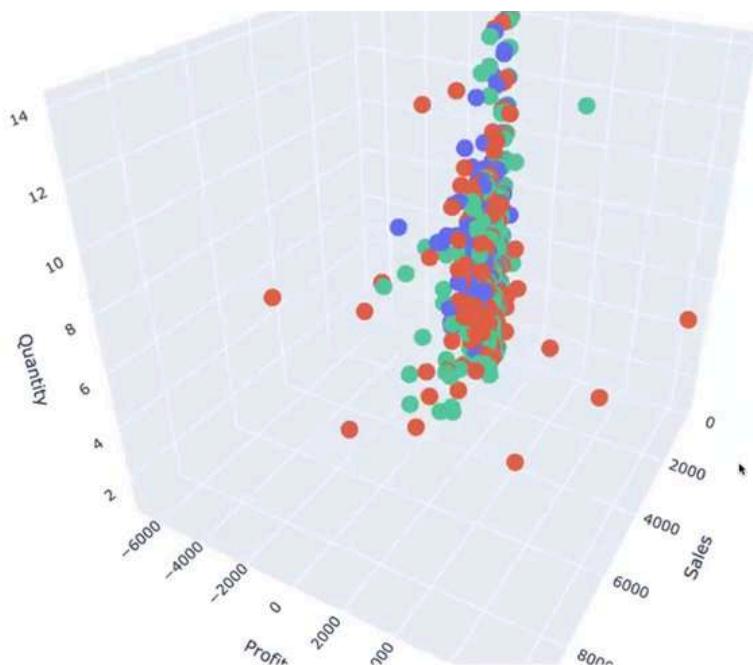

</> Read Excel File and Display Dataframes

Python

```
1 # This code reads the Excel file and prepares the data for visualization.
2 FILEPATH = 'Amazon Store Sales DataSet.xlsx'
3 dataframes = read_all_sheets_from_excel(FILEPATH)
4
5 # Display the head of the DataFrame to understand its structure
6 for k, v in dataframes.items():
7     print('DataFrame: ' + k)
8     print(v.head(15))
```

Code Explanation  
This code reads an Excel file containing sales data and prints the first 15 rows of each sheet to under

Add a prompt and it will start writing a few lines of code

I have created a 3D interactive visualization of the Amazon Store Sales dataset, which illustrates the relationship between Sales, Quantity Sold, and Profit across different product categories. This visualization allows you to explore the data dynamically.  
You can view and interact with the visualization using the link below:  
[Download 3D Interactive Visualization](#)  
If you have any specific analyses or further visualizations you'd like to explore from this dataset, feel free to let me know!

Once you click on the link, you will get the 3D graph as shown in the figure

This is how you will get the link to the file containing the 3D graph

**You can directly paste the prompt here to get the presentation**

Note: Detailed breakdown available in dataset for strategic planning

**Slide 6: Critical Business Issues**

Areas Requiring Immediate Attention

1. Furniture Category Crisis
  - Only 2.2% profit margin threatens category viability
  - Represents 29% of revenue but minimal profit contribution
2. Geographic Imbalance
  - South region significantly underperforming
  - 50% revenue gap compared to West region
3. Category Dependency Risk
  - Over-reliance on Office Supplies for volume
  - Under-leveraging high-margin Technology category

paste the prompt from  
claude.ai into Gamma.app

# Strategic Recommendations

Immediate actions include a furniture audit and South region expansion.

Medium-term initiatives focus on technology growth and customer segment optimization.

- 1 Furniture Audit  
Review costs and pricing.
- 2 South Region Plan  
Analyze barriers, develop campaigns.
- 3 Technology Growth  
Expand high-margin offerings. + AI generating

You can choose a theme in  
which you want the entire ppt

### Critical Business Issues

Immediate attention is needed for the furniture category, geographic imbalance, and category dependency risk.

- Furniture Category Crisis
- Geographic Imbalance
- Category Dependency Risk

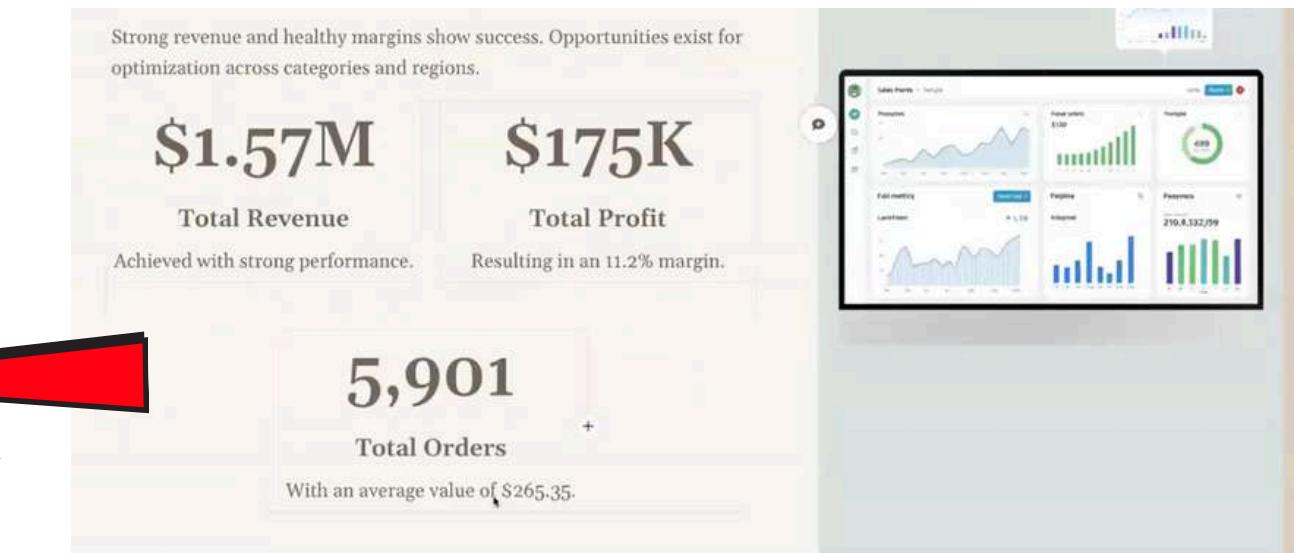

And here we go!
